

# Jeweller Landing Page

## What is it?

So that you can provide your customers with fast and direct access to protect their jewellery we've created a Q Report insurance quote landing page, void of any other Q Report links. This page will allow your customers to get a fast quote and get insured.

The tool will automatically detect where the lead and or sale is coming from, so rest assured you'll receive your benefits and your customers will be protected.

## How to use it.

Simply add this link <https://www.qreport.com.au/jewellery-insurance-australia> to either your main menu, footer menu or other area within your website. We suggest calling the menu item, Jewellery Insurance Quote.
